

London to Brighton Cycle Ride

Sunday 14th September 2025

The 14th edition of the Skyline London to Brighton Cycle Ride will see thousands of riders completing the challenging 55-mile ride from Clapham Common, through south London, Surrey, West & East Sussex to the Brighton finish on Madeira Drive - in the process raising over £1.5 million for a wide variety of good causes.

With huge demand for places to generate much needed revenue for charities, the event will be bigger than ever this year, with traffic management measures in place in your area to ensure the safety of riders and access is maintained for residents.

Road Closure: Ditchling Beacon - Coldean Lane

On Sunday 14th September, Ditchling Beacon will be closed from **06:00 to 19:00** while Coldean Lane will be closed to through traffic from **07:00 to 18:00**. Resident access will be provided at all times from the A270 Lewes Road junction via Park Road, with vehicles managed out from Park Road to the A270 junction for onward travel.

There will be no access during the event towards Ditchling Beacon on Coldean Lane or from the A27 Carden Ave junction down Coldean Lane, traffic will be diverted south on Ditchling Road.

Those properties who live on Coldean Lane itself will be able to exit down to Park Road on the wrong side of the road and return via Forest Road which will be facilitated by marshals.

Residents in Denman Place will have access via Hawkhurst Road North managed by Stop\Go control during breaks in the cyclists, with some delays to be expected.

The event continues into Brighton via the Lewes Road and Valley Gardens to the Aquarium roundabout on open roads. Madeira Drive provides the iconic finish line, which will also be closed to traffic for the event. Please consider these closures and the event route when planning your day, as the roads will be busier than usual.

The full course can be seen at: <https://ridewithgps.com/routes/32193313>.

We would emphasise that emergency vehicles will have priority access at all times.

If you are walking on the route, please take extra care as the road will be busy with cyclists at peak times.

On behalf of the charities who will benefit from the funds being raised on this day, we thank you for your understanding and hope that this will require minimal adjustment to your plans for the day.

If you have any queries regarding the event, please email us at the address below.

Yours faithfully
